CAPABILITIES LIST AND REVISIONS

Flightpath Services, Inc. may perform maintenance, preventive maintenance, or alterations on the articles listed in the Capability List. The Accountable Manager is responsible for ensuring that this repair station's Capability List is consistent with the repair station ratings. Whenever a new item is required to be added to the Capabilities List the Chief Inspector will utilize the Capabilities List Self Evaluation form to ensure that Flightpath Services, Inc. has the housing, facilities, equipment, materials technical data, processes and trained personnel to maintain that item.

1. Perform a self-evaluation to determine that Flightpath Services, Inc. has the appropriate housing, facilities, equipment, material, technical data, processes, and trained personnel to perform the work on that article as required by Part 145.
2. Document the results of the self-evaluation.
3. Keep a copy of the self-evaluation assessment on file.

The Accountable Manager will review and approve the evaluation before establishing or revising the Capability List. The Capability List is a controlled document, and once an initial list or revision has been approved by the Accountable Manager it will be forwarded to the FAA seven days of creation or revision.

Flightpath Services, Inc. will maintain a Capabilities List which shall include all items that the Repair Station is capable of performing maintenance on. The Capabilities List will be divided into five categories. These categories will be wheels, brakes, nicad batteries, sealed lead acid batteries, and emergency equipment. The Capabilities List shall include the nomenclature, manufacturer, and part number and manual number.

The Capabilities List will be revised by Flightpath Services, Inc. whenever an item or rating is added or removed from Flightpath Services, Inc.'s Capabilities List or Operating Specifications.

The Capabilities List shall be evaluated by the Chief Inspector and/or his designated representative every six months to ensure all items maintained by the repair station are currently included on the Capabilities List. The internal evaluation shall determine if the repair station has the housing, facilities, equipment, materials technical data, processes and trained personnel to maintain each item listed on the Capabilities List. The evaluation shall use the Internal Evaluation Checklist and be filed in the Chief Inspectors office.
